

2023 National Convention
— ALBUQUERQUE —
Action For Our Atmosphere

Convention Speakers

Dr. Lyla June Johnson—an Indigenous musician, scholar, and activist—will be Thursday’s speaker. Speaking for audiences across the globe, Lyla June brings a message of personal, collective, and ecological healing. Her work has been focused on Indigenous rights, supporting youth, inter-cultural healing, historical trauma, and traditional land stewardship practices. She blends her undergraduate studies in human ecology at Stanford University, her graduate work in Native American Pedagogy at the University of New Mexico, and the Indigenous worldview she grew up with to inform her perspectives and solutions. Having recently received her Ph.D., her doctoral research focuses on the revitalization of Indigenous Food Systems.

Alpha Chi has named **Dr. Ronald Angelo Johnson**, a Baylor University professor and former CIA analyst, as its 2023 Distinguished Alumnus. Dr. Johnson holds two master’s degrees, a Ph.D., and is a published author with over a dozen peer-reviewed articles in the areas of history and political science. He served for over a decade at the U.S. Department of State and the Central Intelligence Agency (CIA) and has been a professor at Baylor University since 2008. In his current role, he teaches courses on intelligence and national security, and his research interests include the Cold War, the Soviet Union, and intelligence history. Dr. Johnson is an alumnus and nominee of the Texas Iota chapter at Texas State University. He will speak on Saturday.
