General Education (GE) Information

Students should read the CSUB catalog and be familiar with the GE curriculum. Faculty advisors are available to consult for specific questions related to the major. Specific information related to general education requirements is available in the catalog.

Biology-specific general education information

General education Areas B1-B2, B3, B4 & Capstone are satisfied by required courses within the biology major

The SELF requirement can be met with selection of courses in Area C or D that also meet the SELF requirement.

Total General Education: 41 units

Additional Elective Units required for the degree.

The biology department advises that additional units are best completed by taking additional cognate math & science coursework or upper division biology coursework

14 units for BS in Biology

4 units for BS in Biology with Biotech Concentration
