

CRC Energy Transition LECTURE SERIES 2023

Presented by

CALIFORNIA STATE UNIVERSITY
BAKERSFIELD™

California Energy Research Center

Join the conversation on future energy solutions for a sustainable California.

SEPTEMBER 20

**From Depositional
Environment to Rock
Properties in the
Miocene Monterey
Formation of California**

Richard J. Behl, PhD
CSU Long Beach

OCTOBER 18

**Interactions Between
Ice Sheets and Relative
Sea Levels: Lessons
from Antarctica and NW
Scotland**

Alex Simms, PhD
UC Santa Barbara

NOVEMBER 8

**Assessing the Optimal
Uses of Biomass:
Carbon and Energy Price
Conditions for the Aines
Principle to Apply**

Caleb Woodall, PhD
US Department of Energy

4 pm to 5 pm | Room: SCI 3 - 108
