

## Accessible Technology Initiative (ATI) Committee 2021-2022

EVC Loren Blanchard's February 19, 2019 memo to President Zelezny outlines a number of critical steps which are required as part of a remedial campus plan regarding accessibility. CSUB's plan is due to be submitted by September 6, 2019. The requirements are complex, requiring a systematic campus effort, with four other CSU campuses currently engaged in active litigation or Office of Civil Rights investigations. As per the 2017-2018 ATI annual report, CSUB currently has 65 indicators below baseline, 79 at minimal baseline, and 34 above baseline. Project Objectives:

- Successfully meet the requirement of developing a comprehensive plan by Sept. 6th, 2019.
- ATI project objectives are visible across campus and Executive sponsorship is apparent.
- All stakeholders receive appropriate communication in a timely manner as per communications plan.
- All key stakeholders have been engaged in the appropriate planning activities for each focus area.
- The ATI action plan will include tasks to move 65 indicators from 'below baseline' to 'at minimal baseline', improve 79 indicators located 'at minimal baseline', and sustain 34 indicators 'above baseline'.

| Committee Position             | Title                                   | Name             |
|--------------------------------|---|------------------|
| Executive Sponsor              | President                               | Lynnette Zelezny |
| ATI Executive Sponsor          | Interim Provost                         | Vernon Harper    |
| ATI Executive Sponsor          | VP Student Affairs                      | Thomas Wallace   |
